BOWDEN ALBERTA, CAN. THURSDAY, NOVEMBER 9 1911

PER YEAR \$1.00

Local News

Mr C A Shaw of Calgary was in town Monday on business.

Mr P McDermott is in Edmonton for a few days on business.

Mr T E Terry and P A Vincent of Olds were visitors in Bowden on Sunday.

Bob Sharp and Sandy Dundas of Innisfail were in town between trains Tuesday.

The Alberta and Eastern B.C. Press Association convenes in Calgary on Nov 9 and 10.

Mrs Lloyd Leslie who has been visiting friends in Calgary for the past three weeks returned to Bowden Monday.

Miss Carrie Hess left Tuesday for Edmonton where she will attend, as representative from Lone Pine District, the Convention of the Methodist Sunday Schools which is now in session.

Last Friday Mr O W Chamberlin unloaded a new Traction Engine and gang plough purchased from Gould, Sharples & Muir of Brantford through their local agents, Messrs Howard & Morfitt. The engine is a double cylinder machine capable of generating 28 horse power.

Although the weather was most unfavorable a fair number turned out and enjoyed the good things which the Methodist Ladies Aid had prepared for their Harvest Home Supper held in the old News Office last Friday evening. After the supper a concert was given in the Methodist Church which was well appreciated. Following the concert an auction sale of the cooking left over from the supper was held which realized a goodly sum for the church.

Mr G F Mitchell opened his new poolroom to the public on Monday evening by a rotation pool tournament in which J Arnold, E Munford, and V Hayward, reached the semi finals. In the draw for a (byc) E Munford drew the lucky ticket but was defeated in the final game by J Arnold, who had previously disposed of the other contestants. The poolroom contains two tables, a regulation size pool table and billiard table with end delivery pockets. Two racks of well assorted and expensive cues are also a valuable asset to the new billiard hall.

HOWARD & MORFITT

THE SQUARE HOUSE
"Where It Pays to Deal"

Let Him Know

Mr Editor:

Kindly permit me through the medium of your interesting paper, to request that all persons in this vicinity who, in the last eighteen months, have sustained loss by animals being injured on the railway track, communicate with me by post card or otherwise, stating nature of accident—if claim for indemnity was made—and if so, with what result?

The writer's experience indicates that some concerted action is suggested in this connection—and this is a preliminary step in that direction. Kindly advise me early,

And oblige,
W. W. Hiltz.
Bowden, Nov 9, 1911.

Mr L L Morgan, who purchased last week the mercantile business formerly conducted by C H Payne & Co. has put on a Slaughter Sale to clear out the present stock. The goods have all been marked down to cost price to make a quick clear-out.

Huge C. P. R. Dam at Bassano, Alta.

The Canadian Pacific Railway report good progress in connection with the construction of their big dam at Bassano, Alta. This dam is being erected by the Irrigation Department of the Canadian Pacific Railway to divert water from the Bow River into the main canal of the east section of the irrigation block. It will consist when completed of an earth embankment on the south bank of the Bow river, and a reinforced concrete spill in the existing river channel, connected at the northerly end with the canal headgates. The river is approximately 600 feet wide at this point, its south bank having a gravel beach several hundred feet in width, at the thickest part of the base, containing approximately one million cubic yards of earth. Its upper surface will be paved with boulder concrete or reinforced concrete slabs.

The total length of the weir will be about six hundred feet, another construction will be about 720 feet in length between abutments. The overflow crest will be at maximum height of forty feet, above which eleven feet of water will be retained by structural steel gates.

The spillway will contain about 40,000 cubic yards of concrete, and 1,250 tons of reinforcing steel.

This dam of the C. P. R. at Bassano is probably the largest which is now being built in Canada.

"Charley, dear," said young Mrs. Torkins, "What is a jackpot?" "Why—er—a jackpot is a general contribution for purposes of charitable donation." "Oh! Do you know, I was afraid it had something to do with the wickedness of politics."—Washington Star.

ARLINGTON CHALLENGE WATERPROOF COLLARS

**LESS TIME IN THE KITCHEN****MORE TIME IN THE FRONT ROOM**

That's your reward if you let **MOONEY'S BISCUITS** take the place of the bread and biscuits you bake yourself.

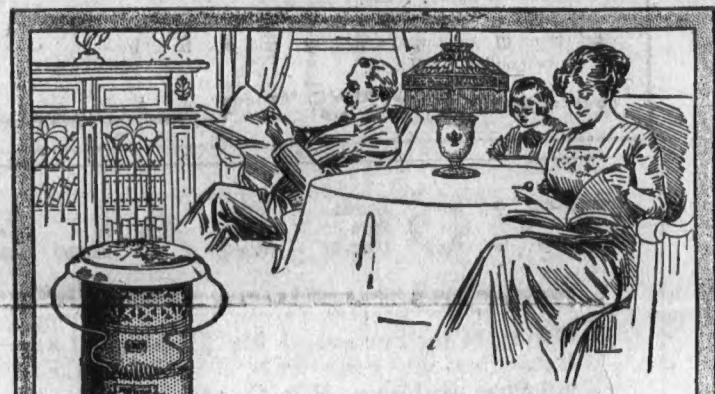

You'll find **MOONEY'S** a delightful substitute for your own best efforts—the family will like them. Because

MOONEY'S PERFECTION SODA BISCUITS

come to you straight from the oven in the big Winnipeg factory.

They have that freshness and crispness only to be found in a newly made biscuit. No other biscuit can come to your table as fresh from the oven as **MOONEY'S**.

Get the big package or the sealed tin—both of them damp proof, dust proof, dirt proof—and

"LET MOONEY DO IT"**The Handy Heater****PERFECTION SMOKELESS OIL HEATER**

You often need some heat in early Fall, when you have not yet started the furnace.

In whatever part of the house you want it, you can get it best and quickest with a Perfection Smokeless Oil Heater.

The Perfection is the most reliable heater on the market, and you can move it wherever you please.

Start it in bedroom or bathroom, and you dress in comfort on the coldest morning. Take it to the dining-room, and early breakfast becomes a pleasant, cosy meal. A touch of a match at dusk, and all is snug for the evening.

The Perfection Smokeless Oil Heater is beautifully finished—an ornament anywhere. Drums of plain steel or enamelled in blue; nickel trimmings.

A special automatic device makes smoking impossible. Burner body cannot become wedged. All parts easily cleaned. Damp top. Cool handle.

Dealers everywhere; or write for descriptive circular to any agency of

The Imperial Oil Company, Limited

It is this new blood people talk about that causes most of the runways.

A cold on your chest weakens your lungs. Tubercular Germs attack the weak spots. Keep your lungs strong by curing colds quickly with Hamlin's Wizard Oil and you will not get Consumption.

No man can be so respectable that a good many will not lie about him.

DISEASES OF MEN—DR. DEAN,
specialist, 5 College St., Toronto.

The great art about carrying responsibilities is to shift them to some body else's shoulders.

Hard and soft corns both yield to Holloway's Corn Cure, which is entirely safe to use, and certain and satisfactory in its action.

A spinster's idea of an affinity is any man who will propose.

Women's Secrets

There is one man in the United States who has perhaps heard more women's secrets than any other man or woman in the country. These secrets are not secrets of guilt or shame, but the secrets of suffering, and they have been confided to Dr. R. V. Pierce in the hope and expectation of advice and help. That few of these women have been disappointed in their expectations is proved by the fact that 98 per cent. of all women treated by Dr. Pierce or his able staff, have been absolutely and altogether cured. Such a record would be remarkable if the cases treated were numbered by hundreds only. But when that record applies to the treatment of more than half-a-million women, in a practice of over 40 years, it is phenomenal, and entitles Dr. Pierce to the gratitude accorded him by women, as the first of specialists in the treatment of women's diseases.

Every sick woman may consult us by letter, absolutely without charge. All replies are mailed, sealed in perfectly plain envelopes, without any printing or advertising whatever, upon them. Write without fear as without fee, to World's Dispensary Medical Association; Dr. R. V. Pierce, President, 663 Main Street, Buffalo, N. Y.

THE HOME OF THE NAVY

HALIFAX ONCE MORE COMES IN TO HER OWN.

The Ancient Port and Dockyards Made Famous as the Temporary Home of Great English Seamen Is Now Training Admirals — Days of War With France Were Busy Ones In the Naval Depot.

The Halifax dockyard, once famous in the annals of Britain's conquests, has again resumed importance as a naval base, says W. H. Dennis in The Globe. With the arrival of the cruiser Niobe, the first vessel in the east to form the nucleus of the Canadian Navy, and the fitting up of the Naval Hospital as a college for the training of cadets, this once-noted naval yard has taken on a little of its old-time activity. When the American colonies that now form the United States revolted from the mother country the Halifax dockyard became the only naval base on this side of the Atlantic. But before the days of the revolution Halifax had been the rendezvous of the famous expedition that gathered for the conquest of Louisburg and Quebec.

Here Boscowen and Sir Charles Hardy refreshed their fleet and waited the coming of Gen. Amherst, preparatory to their famous attack on the Dunkirk of America, and a year afterwards Admiral Saunders and Gen. Wolfe sailed off the harbor to the conquest of Quebec. The most celebrated names connected with the naval warfare appear in the records of this yard. On two tablets until recently in the Admiralty House, Halifax, are inscribed the names of many of the most distinguished Admirals of the eighteenth and nineteenth centuries.

In the old troubled days when vexed Europe and America, there were stirring times in Halifax. The harbor thronged with ships of war, or valuable prizes captured from the enemy. A great number of people found employment in the dockyard as shipwrights, caulkers, smiths and riggers. British men-of-war and captured French frigates had to be repaired, after hot battles on the high seas, and in war times a large staff of mechanics was constantly engaged in this work.

In the dockyard records we find many orders similar to the following "Halifax Yard, Sept. 4, 1865

"Memo: The blacksmiths to be employed from 5 o'clock in the morning until 9 o'clock at night.

(Signed) "John N. Inglefield," Commissioner, H.M. Navy Yard."

And again we find a reference to the activity in the yard on Feb. 13, 1801. Elas Marshall, master shipwright, and J. Jackson, master-at-arms, report to Sir William Parker concerning the erection of buildings in the dockyard. They report that they could not be erected on account of scarcity of men, caused by employment on the hospital.

In old days the piers and jetties of the dockyard echoed to the songs of the jolly jack-tars that have made the story of Great Britain's prowess upon the seas a world-stirring drama. Famous captains have passed in and out of its pillared gates; have married and lived within its walls. Nelson's renowned captains have given their orders to the master shipwrights after hulls and riggings of their ships had encountered the storms of battle or felt the fury of the eleventh.

On Nov. 17, 1807, a fashionable wedding took place at Halifax which constituted one of the interests in local society circles of that time. Sir Thomas Hardy, one of Nelson's famous captains, had arrived in Halifax in October, after his ship, the Triumph, with some of the North American fleet, had been engaged watching a number of the French men-of-war shut up in Chesapeake Bay. When the gallant captain, under orders from his chief, Admiral Sir George Cranfield Berkeley, was ordered to Halifax to refit and repair he little dreamed that at Halifax dockyard he was fated to meet his future wife in the person of the charming daughter of the commander of the North American station. The brave commander of the Triumph, then 38 years of age, was not long in port before he surrendered to the charms of Miss Louise Emily Berkeley, daughter of

Admiral Berkeley, and granddaughter of Lord Lennox.

The naval hospital, which is being fitted up to receive the naval cadets, and which is to be the college, is a plain brick building situated at the north extremity of the yard. The building is not very old, being built about the early sixties of the last century. The first hospital for sick and disabled seamen was built during the period of the American revolution. It was destroyed by fire in the early years of the nineteenth century.

It is more than thirty years since the last wooden three-decker met its fate at a ship breaker's hands in Halifax. That ship was the Pyramus and had long outlasted its companions, having served as a floating magazine at the dockyard. To what ship the figurehead at Halifax belonged is not known, and tradition says nothing of its history. It is the only remnant left of the stirring days when Great Britain's fleet fought in many parts of the world.

The naval officials in the yard, with one or two exceptions, are English naval officers. Captain Martin holds the position of Commander of the Yard, Commander of the Naval College, and Commander of the cruiser Canada. The Canada has been the flagship of the Canadian fishery probation fleet, and has always been conducted on royal navy lines. She is, strictly speaking, the pioneer ship of the Canadian navy. All her officers are Englishmen.

The Naval College opened on Jan 1, with a class of 21 cadets, from whose numbers Canada's future admirals and captains will be chosen.

Tapestries May Leave England.

Unless some effort is made to retain the famous Mortlake tapestries, after Raphael's cartoons, it seems probable that they will find their way to America, as it is understood that the Duke of Rutland, their present owner, has received an offer from that country to purchase them for \$75,000, and neither South Kensington nor the National Art Collectors' Fund, although very anxious to secure them for the nation, are in position to exceed this offer.

These tapestries are an example of an art lost to England since the closing of the famous Mortlake tapestry works over 200 years ago. The only two specimens of this work belonging to the public are at the Victoria and Albert Museum, and are far inferior to these Belvoir Castle tapestries. The one about to be purchased for South Kensington was burned in the Brussels' fire last year.

These seven pieces are in an excellent state of preservation. They were made at Mortlake for King Charles I, and subsequently sold by Oliver Cromwell to Lord Haddon. They hung for many years in Haddon Hall, and came into the possession of the Duke of Rutland's family with that famous building. They are now in the chapel at Belvoir Castle.

Mis Suggestion.

A lady told Lord Palmerston that her maid who had been with her to the Isle of Wight objected to go there again because the climate was not enough bracing enough.

"What am I to do with such a woman?" she asked.

"You had better take her to the Isle of Man next time," said Lord Palmerston.—London Tit-Bits.

Thirteen Hundred Year.

Next year the English Church will celebrate the one thousand three hundredth anniversary of the baptism of the first English King by St. Augustine. The dean and chapter of Canterbury still hold land in Essex given by King Ethelbert of Kent, which has been in their uninterrupted possession since 597.

African Rivers.

All the rivers of Africa have remarkable peculiarities. They seek the ocean that is farthest away from their source. Their course is always broken by falls, and their mouths are stopped by numerous sand banks.

Grindstones.

If a grindstone be left exposed to the sun the side kept uppermost by the weight of the handle will harden and the wheel will be ground out of a true circle.

England's Great Seal.

The great seal of England is a silver pair of dies, which are closed to receive the melted mass, poured when an impression is to be taken, through an orifice left in the top. The impression of the seal is six inches in diameter and three-quarters of an inch thick.

The Earliest Almanac.

The earliest printed almanac of which we have any record was that of George von Purbach, who lived in Vienna in 1460.

Handball.

Handball was the chief exercise of the young Spartans, and the Athenians so highly esteemed the sport that they erected a statue in honor of Aristonicus on account of his skill in it. Romans of all ages and degrees found much pleasure in the game in the olden time.

Salt in the Ocean.

The salt in the ocean would make 4,800,000 cubes, each one mile in dimension, which, if spread over the United States, would form a layer 14 miles high.

TOO LITTLE BLOOD

THE CAUSE OF NEARLY ALL THE EVERYDAY AILMENTS OF LIFE

Too little blood—that is what makes men and women look pale and sallow and feel languid. That is, what makes them drag along, always tired, never real hungry, unable to digest their food, breathless and palpitating at the heart after slight exertion, so that it is wearisome even to go up stairs. Doctors tell them that they are "anaemic"—the plain English being too little blood. If your face is pale or sallow, if your gums are pale instead of being scarlet; if you are easily tired and frequently despondent; if you do not relish your meals, and small matters irritate you, it is a sign that your blood is thin and watery and that you are on the verge of a complete breakdown.

More weak, anaemic people have been made strong, energetic and cheerful by taking Dr. Williams' Pink Pills than by any other means. They actually make new blood, which reaches every part of the body, braces the nerves and brings new health and new strength. The case of Miss Nellie Welch, Essex, Ont., is proof of the great curative powers of Dr. Williams' Pink Pills. Miss Welch says: "A few years ago I was going into what friends believed to be a hopeless decline. I was subject to severe headaches, had no appetite, was pale and grew distressingly weak. I tried several doctors, some of whom we counted the best in this part of the country, but they failed to help me. At last my heart grew so weak and I was so nervous and thin that I had to take to my bed and the doctor held out but little hope for my recovery. Like others I had often read of Dr. Williams' Pink Pills, and though the doctor opposed my taking them I determined to give them a trial, as I felt I might as well be dead as to be living in the misery I was in. In a month after beginning to take the pills I was up and around again, and steadily growing stronger until I was again enjoying the blessing of perfect health. Several years have since elapsed and my health has been the very best. It is therefore with great gratitude that I write you in the hope that my experience may be of benefit to some other sufferer."

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

When it is generally said of a man that he doesn't work very hard, you will find, also, that he doesn't get along very well.

WHY SUFFER ALL WINTER?

Hardfield, N.B. — "It affords me great pleasure to convey not only to you but to all sufferers from Backache and Rheumatism, the great relief I have obtained from the use of Gin Pills. I feel thankful to you. I recommend Gin Pills to everyone suffering as I did."

ROBERT M. WILSON.

Write us for free sample of Gin Pills to try. Then get the regular size boxes at your dealer's or direct from us—50c. a box, \$6 for \$2.50. Money refunded if Gin Pills fail to cure. National Drug and Chemical Co. of Canada, Limited, Dept. N. U. Toronto.

Knicker—"Thought your boy's college expenses were over?"

Bocker—"No, he wants money now to contribute as an alumnus."—Puck.

Pimples So Bad He Was Ashamed

Tried Everything but Did It No Good. One Box of Cuticura Ointment Took Pimples Away.

"About seven years ago pimples broke out all over my face and neck. When they would first come out they would be big and red, and after a while they would turn white, and matter would come out. Sometimes they would itch so I could hardly sleep. I was ashamed to go down street, my face looked so bad. I went to several doctors and got medicine, which did me no good, and bought ointment, salves and patent medicines, but none of them would cure my face and neck. A friend advised me to try Cuticura Ointment. I got one box, and it took the pimples away before I had it all used up. I suffered who had pimples would use Cuticura Ointment if they want a sure cure never had soap equal to Cuticura Soap." (Signed) Aylmer Mathers, Parkhill, Ont. Dec. 24, 1910.

Sores All Over Baby's Body

"When my baby boy was six months old, his body was completely covered with large sores that seemed to itch and burn, and cause terrible suffering. The eruption began in pimples which would open and run, making large sores. His hair came out and finger nails fell off, and the sores were over the entire body, causing little or no sleep for baby or myself. Great sores would come off when I removed his shirt. We tried great many remedies but nothing would help him till a friend advised me to try Cuticura Soap and Ointment. I used the Cuticura Soap and Ointment but a short time before I could see that he was improving, and in six weeks' time he was entirely cured. He had suffered about six weeks before we tried the Cuticura Soap and Ointment, although we had tried several other things and doctors. I think the Cuticura Remedies will do all that is required for them, and a great deal more." (Signed) Mrs. Noble Tubman, Dodson, Mont., Jan. 28, 1911.

Cuticura Soap and Cuticura Ointment sold by druggists and dealers everywhere. Send to Potter Drug & Chem. Corp., 66 Columbus Ave., Boston, U. S. A., for a liberal free sample of each, with 22-p. booklet.

This Food-Tonic Quickly Restores Strength

After a serious illness, ordinary food should be supplemented by a strengthening tonic. For this purpose

NA-DRU-CO Tasteless Cod Liver Oil Compound

is recommended very highly. In its preparation the disagreeable flavor of the natural Cod Liver Oil is entirely removed, while its well known nourishing and tissue-building qualities are retained. Then we add Hypophosphites to build up the nerves. Extract of Wild Cherry (for the Lungs and Bronchial Tubes), and Extract of Malt (a food itself) which aids in the assimilation of other foods.

FOR EVERY ailment THERE'S A NA-DRU-CO SPECIFIC BEARING THIS TRADE MARK. SEE THAT YOU GET IT.

The Biggest of All Nests.

The nests of the jungle-fowl, so-called, in Australia are not only the largest of nests, but the heaviest as well.

These nests are built in the form of great mounds, the average measurement in height being fifteen feet. In circumference they are about one hundred and fifty feet. They are constructed in secluded, sheltered spots and are skillfully interwoven with leaves, grass and twigs, together with such other suitable material as the fowl has been able to obtain.

The bush turkey employs a similar system in the construction of its nest, though its home is more comprehensive in design. The shape is pyramidal. Australian naturalists aver that the nests of the bush turkeys are sometimes so large that the services of several men are required to move them.

Two Scotch Stories.

A Scotch schoolmaster in Banffshire years ago had strong views on the subject of dress. In the day when erinoline was the rage a girl came to school with a very extensive one, which much exceeded the space between the desk and the form on which she had to sit. The teacher, seeing this, said to her, "Gang awa' hom-and tak' off tha' girds (hoops) and come back to the school as God made ye."

Another rough and ready dominie was examining his boys in a catechism and asked if God had a beginning. "No," said the boy. "Will he have an end?" "Yes," he replied. This was followed instantly by a bullet on the side of the head. "Will he have an end now?" "No," said the boy, and the master was satisfied.

Pulling Teeth in Scotland.

An old Scotchwoman journeyed to London to visit her son. She was taken with a jumping toothache and upon the advice of her son visited a dentist, who soon had the offending molar flying in the air. With a sigh of relief the old lady climbed out of the chair and asked:

"How moon?"

"Ten shillings, mam," replied the dentist.

"In shillings, is it, ye robber?" screamed the woman. "Why, I'll ha ye know, Sandy MacPherson 'ud haul me all about the smilin' for saxpence."

40 SONGS WITH MUSIC, 2c

Forty of the most popular songs ever written, clearly printed and neatly bound in a book with a pretty colored cover. Words complete, and music for both hands. Send me a 2c stamp and I will mail you a copy. Positively the biggest music bargain ever offered. A. M. JURY, Music Book Dept. 9 W. N. Toronto.

There are some sane people I can't stand; I don't know what I should do if compelled to be much with crazy people.

Chapped Hands AND Cold-Sores

Are your hands chapped, cracked or sore? Have you "cold cracks" which open and bleed when the skin is drawn tight? Have you a cold sore, frost bite, chilblains, or a "raw" place, which at times makes it agony for you to go about your household duties? If so, Zam-Buk will give you relief, and will heal the frost-damaged skin. Anoint the sore places at night, Zam-Buk's rich healing essences will sink into the wounds, end the smarting, and will heal quickly.

Mrs. Yellen, of Portland, says: "My hands were so sore and cracked that it was agony to put them near water. When I did so they would smart and burn as if I had scalded them. I seemed quite unable to get relief from anything I put on them until I tried Zam-Buk, and it succeeded when all else had

Miners Return to Work This Week—Terms of Agreement Meet With the Approval of Both Parties—Hon. Robert Rogers, the New Minister of the Interior, a Factor in Bringing About a Satisfactory Settlement.

Lethbridge, Alta.—At last the good news has arrived.

The long drawn out coal strike is at an end. Within a few days a new agreement will have been drawn up and signed by both sides, every mine affected will be humming in lively fashion in a week. For the past three weeks both parties have been on the verge of a settlement and both parties got together for a conference at which Hon. Robert Rogers was present. The whole matter was gone thoroughly into. One of the miners' executives stated that everything was in satisfactory shape for final deliberations which will assuredly result in the execution of an agreement between the parties.

The whole matter is to be submitted to a referendum vote of the various miners' unions but the basis of settlement will be very satisfactory to them.

The basis of settlement is said to be the Gordon award as to wages and recognition of the check system. Slight changes in the wage schedule, particularly as regards contract work. The agreement is for a term of two years.

Hon. Robert Rogers was particularly delighted with the outcome of the conference, as were the representatives of the men and operators.

CROSSING THE GREAT DIVIDE

Three Weeks Will See the National Transcontinental Over Summit

Edmonton.—The crossing of the Great Divide with steel on the National Transcontinental Railway will be an accomplished feat within the next three weeks, if no hitch occurs in the arrangements of the construction department of the G. T. P., which is now shipping supplies to Fitzhugh for another twenty miles of line, which will move the steel head from a mile and a half west of the mountain divisional point to three miles beyond the summit of the Yellowhead.

It is probable that the track-laying machine will resume operations west of Fitzhugh in the course of another week. The grade through the mountains is practically completed and ready for the steel, steel rails and ties to the present head of steel.

Freighters are now passing through the country every day with loads of construction supplies. They are using a wagon road that has been constructed jointly by the B. C. government with a view of aiding its settlers and the railway contractors, Foley, Welch and Stewart.

It is probable that with the opening of navigation on the Fraser next year thousands of tons of supplies for settlers, prospectors and railway engineers in Central British Columbia will go in from Edmonton, through the mountains and down the river to various points in steamers and in scows.

TO MEET IN CALGARY IN MARCH

Seventh Day Adventist Conference for Western Union to Meet in This City Next Spring

Chicago.—The dates of meetings of union conferences were fixed recently by the general council of the Seventh Day Adventists now in session here. The central and northern conferences, comprising Colorado, Kansas, Nebraska, Missouri, Wyoming, Iowa, Minnesota, North and South Dakota, will be held at Lincoln, Nebraska, January 18 to 28. The western union conferences, composed of Manitoba, Alberta, British Columbia and Saskatchewan, will meet at Calgary March 6 to 19.

The lake union conference, composed of Indiana, Illinois, Wisconsin, and Michigan, at Milwaukee 18 to 28. The Canadian union conference, composed of Quebec, New Brunswick, Nova Scotia, Ontario, Prince Edward Island and Newfoundland, at Toronto, June 27 to July 8.

Bull Kills Woman and Guards Body

Elphinstone, Man.—The mystery of the missing Galician woman has at last been cleared up. The body was found not far from her home but tramped and torn into an almost unrecognizable mass.

Standing near her was the cause of her death, an infuriated bull. The animal had evidently stood guard over the body of his victim for two weeks, and when discovered returned to his position beside it. The woman had frequently gone out armed with a pitchfork, when searching for the cattle, though she was aware it was a dangerous animal.

To Fly Across the Atlantic

Toronto.—L. C. Van B. Every, of Toronto, is to be one of a balloon party which is to make an effort to cross the Atlantic in a dirigible, starting out from Atlantic City. The Canadian government has been invited to send a representative. The test flight will be made in a dirigible designed by F. A. Seiberling and christened "Akron." It is of such a character as to be easily controlled, which will permit of the height of the ship being regulated.

INDICTED FOR MANSLAUGHTER

Coroner's Jury Hold Leine and Niene Responsible for the Trunk Which Contained Deadly Chemicals

Lacombe, Alta.—That Everett G. McLeod came to his death from injuries received from the explosion of a trunk in the baggage room of the C. P. R. depot at Lacombe on the evening of October 12, 1911, and from evidence produced it is the opinion of the jury that the trunk causing the death of the said Everett G. McLeod was checked over the C. P. R. from Red Deer to Lacombe by Henry Leonard Nein and Harry Leine.

The above is the verdict of the coroner's jury on the death of the C. P. R. baggageman, who was killed in the explosion which wrecked the depot here on the 12th inst. Bickford, the assistant baggageman, who was also severely injured at the time, was able to leave the hospital and appear before the jury. He is still very weak and suffers from the severe burns received. His evidence was with reference to the trunk which exploded and which was taken off the train by him on the evening of the accident.

Several other witnesses were called with reference to the trunk, the most damaging evidence to the parties under arrest being given by the baggageman at Red Deer, who identified positively Leine and Nein as being the parties who checked the trunk from Red Deer to Lacombe.

From evidence brought out the trunk contained a large amount of potassium chlorate and magnesium metal powder.

Leine and Nein were taken to Fort Saskatchewan by the R. N. W. M. P. to await a preliminary trial on a charge of manslaughter.

WANT TO RAISE EXPRESS RATES

Railway Commission Refuses to Allow Companies' Application for Power to Raise Rates

Winnipeg.—The Dominion Railway commission at Toronto gave its decision upon application by the express companies, against which a protest was made by the shippers' section of the Winnipeg board of trade, to be allowed to cancel section D of the express classification rates covering almanacs, printed books, calendars, periodicals, cards, catalogues, insurance forms, maps, posters, sheet music, programmes, and similar printed matter generally.

What the companies applied for was to bring all these classes of matter under the merchandise rates, which would mean minimum charge of 25c instead of 10c, the limit weight being 5lb. for each package. If the application of the express companies had been granted, it would have meant the raising of the minimum charge from Winnipeg to Brandon, Regina, or Saskatoon, from 10c to 25c, and to Edmonton and Calgary from 10c to 30c. The rates would have been increased proportionately up to the 6lb. limit, on which the increase would have been as follows: To Brandon from 40c to 45c, to Regina from 40c to 65c, to Saskatoon from 40c to 65c, and to Edmonton and Calgary from 40c to 75c.

The commission has refused to allow these higher rates to go into operation. By a decision given at Toronto the commission has also refused to allow the express companies to increase their minimum charge on "returned empties" from 5c to 10c.

TURKS AROUSED TO FIGHT

The War With Italy Will Be Continued With the Fiercest Intensity

Constantinople.—The Turks are so aroused that efforts at peace by the powers are a complete failure. The war will be continued with greater intensity. While the danger of terrible events increases daily the committee of union and progress has forced the government to levy a duty of 100 per cent. on all Italian goods.

It may follow this by re-opening the question of the expulsion of tens of thousands of Italians. Compelling the government to yield to such action certainly would bring the Italian fleet into Turkish waters, and might lead the Balkan states to strike the Turks simultaneously.

OIL FOR C. P. R. ENGINES

Mountain Section of Road Will Introduce New Feature in Fuel

Montreal.—The Canadian Pacific railway announce that it has been definitely decided to use oil as fuel in their mountain engines.

Geo. J. Bury, vice president and general manager of the Canadian Pacific Railway, when asked regarding the above despatch, confirmed the report and stated that just as soon as changes could be made in the engines and oil tanks installed, the company would use oil in their mountain engines between Field and Kamloops.

The question of where the company will secure their oil supply has not been decided on.

"D. G." Was Overlooked

London.—In the house of commons recently, McKinnon Wood, on behalf of the treasury, informed Lord Evelyn Cecil that the words "Dei Gratia," or their abbreviation, "D. G.," had been omitted inadvertently from the new Canadian coinage and fresh dies had therefore been sent to the Canadian mint.

CANADA AND EMPIRE

EARL GREY TELLS OF DOMINION'S ENTERPRISING PEOPLE

Canada Will Some Day Be the Dominant Factor of the Empire, Says Earl Grey in an Interview in London, England—Canada's Natural Resources, Her Enterprising People and Her Great Railway System Assure This.

London.—Earl Grey, speaking to a group of newspaper men, said that Canada would one day be the dominant factor of the empire.

"Her natural resources, her enterprising people, and her great railways assure that consummation," he declared.

"And there is one lesson Canada will soon teach us," remarked his excellency. "There, as elsewhere, the cost of living has increased, and because the primary necessities haven't kept pace with the needs and growth of the population the new government will not be content with extending the area of settlement for cultivation."

"The indifferent farmer, who merely scratches the soil, is not unknown in Canada, and it has been demonstrated in the province of Ontario that it could double the crops without adding an acre to the farms, by more intense cultivation."

"This will benefit every class."

"Canada is also well equipped for the work of her agricultural colleges, which are practical institutions, managed by experts in every branch of agriculture who are ready to give help and advice to any settler, wherever he may be from."

"The Canadian system," further remarked Earl Grey, "of educating the farmer, might be adopted with immense advantage in the United Kingdom."

Two other reforms which impressed Earl Grey was the civil service commission, which has effected a permanent and beneficial change in civil service.

He said this bill will improve the administration and avoid needless expense.

The other reform in progress is the union of Protestant churches.

CONVICTED BANKER DEAD

John R. Walsh of Chicago One Time Powerful Financier, Dies After a Week's Freedom

Chicago.—John R. Walsh, former banker, publisher and railroad owner, released from the Leavenworth Federal penitentiary died a week afterwards of heart disease. Mr. Walsh had been in bed most of the time since his arrival here from Leavenworth, Oct. 15.

He had been attended constantly by physicians.

Reports that Mr. Walsh was in failing health during his incarceration had been denied at the penitentiary. On his release it was plain that he had aged and he gave up his plans for resumption of his position as financial leader and took to his bed.

Five years ago, John R. Walsh was one of the chief financial magnates of Chicago. As the head of one of the great national banks of the city, he promoted many ventures requiring large amounts of capital. Among other things he owned the Daily Chronicle of Chicago, which lost many millions during its 15 years' service. His undoing was the result of an effort to bolster up a radial railway scheme. He placed the railway securities for \$25,000,000 in his bank as collateral for the advancement of that amount of capital. When the bubble burst he was arrested for violation of the national banking act, and after a lengthy trial was given an indefinite sentence in Leavenworth federal penitentiary.

The commission has refused to allow these higher rates to go into operation. By a decision given at Toronto the commission has also refused to allow the express companies to increase their minimum charge on "returned empties" from 5c to 10c.

ANOTHER ROAD TO HUDSON BAY

Premier Roblin Says He Will Construct One North From Winnipeg

Winnipeg.—In an announcement made recently, Premier Roblin, of Manitoba, asserts the probability of constructing a direct line of railroad from Winnipeg to Hudson Bay. He stated the project to be quite feasible, and intimated that it would be carried to completion as soon as the Manitoba boundary question was settled.

Sir William Mackenzie is expected in Winnipeg shortly to confer with the capitalists who are financing the proposed railroad to Hudson Bay. If the C. N. R. takes up the work it is said that the line will go from Winnipeg east of Lake Winnipeg.

Lord Strathcona's Art Gift

London.—Lord Strathcona has presented to the British Museum Lord Nelson's "Victory," a handsome painting representing the British Fleet leaving Gibraltar in 1802. The King, on being notified of Lord Strathcona's act, telegraphed his appreciation of the generous gift.

To Give Wife Deserters a Job

Winnipeg.—A movement is now on foot here for the formation of a penal farm upon which to work out vagrants and wife deserters. The project has several friends in the city council, and a determined effort will be made to secure the necessary legislation.

Gov. General to Visit Hamilton

Hamilton.—The Duke and Duchess of Connaught have notified Mayor Lee that they will visit Hamilton on Nov. 31, remaining over night.

ADMIRAL TOGO'S TRIP

It Led Him to Appreciate the Hospitality of the Canadian Pacific Ry.

On his return trip from England, which he attended as one of the suite of the imperial Japanese delegation to the coronation, Admiral Count Togo travelled across Canada by the Canadian Pacific Railway—which has been called the "Alliance Route," and was, therefore, rather appropriately chosen on this occasion by this distinguished representative of an embassy between the allies. By instruction of the president of the Canadian Pacific Railway Company, Sir Thomas Shaughnessy, Admiral Togo was the guest of the company throughout, and every effort was made to make his trip pleasant.

The Admiral took the private car "Canada" at Niagara Falls, proceeding to Banff and thence to Vancouver. The "Canada," it should be explained, was the car specially built for the present King and Queen of England, a few years ago, when they made their notable Canadian trip.

On arrival at Vancouver, Admiral Togo telegraphed to Sir Thomas Shaughnessy his heartfelt thanks for the services and arrangements accorded him on the Canadian Pacific Railway, and assuring the president that his trip had been exceedingly pleasant.

It is evident that such indications of a broad spirit of hospitality as that shown by the Canadian Pacific Railway on this occasion makes materially for the promotion of pleasant international relations, and Admiral Togo is only one in a long list of distinguished Japanese who have thus travelled over the Canadian Pacific. Indeed, it may confidently be stated that attentions of this kind to one so much respected and beloved as Admiral Togo are deeply appreciated in the highest quarters in this country.

CAR FAMINE FEARED

C.P.R. and G.T.P. Each 2,000 Cars Short—Question of Demurrage Considered

Toronto.—The first case taken up by the Dominion Railway board dealt with the old question of demurrage.

At present the Canadian railroads allow three days for unloading a coal car. The Canadian retail coal dealers' association of London asked for an amendment providing that five days be allowed. The contention of the coal dealer's association is, that they should be allowed an average of three days, the time gained should be allowed in other cars for the same dealer, which went over the three day limit. They would agree to a total limit of six days, and after that double demurrage dues might be charged.

That Canada was now facing a freight car famine was stated by Mr. Duvall. The G. T. R. was now 2,000 cars short, he said, and C. P. R. officials told him they were in the same fix. We'll take the matter under consideration said the chairman. He intimated that not only coal car demurrage, but the cars of all dealers would be considered by the board before judgment was given.

Money Recovered

Fort William, Ont.—The money stolen from the Royal Bank by A. R. Running has been recovered in Running's room in a valise. Amount recovered is \$4,835 and the bank officials say that was the amount taken. The young man was to have been married next Thursday to a local girl. He wanted to take a honeymoon tour and was without sufficient means. Friends think his mind is unbalanced. He has not confessed.

For Diseases of the Skin

THERE IS NO TREATMENT SO CERTAIN TO RELIEVE THE ITCHING AND HEAL THE SORES AS

DR. CHASE'S OINTMENT

The one common feature of nearly all skin diseases is itching, annoying and oftentimes almost unbearable itching.

The strong point about Dr. Chase's Ointment is that by reason of its remarkable soothing qualities it relieves itching from the moment it is applied.

But Dr. Chase's Ointment does more than this. It is composed of the greatest healing ingredients known to science, and its healing powers are often described as magical.

Ailaying the inflammation, relieving the itching and gradually and naturally healing the raw, flaming flesh. Dr. Chase's Ointment is the most effective treatment for eczema and salt rheum that was ever discovered.

There are many kinds of eczema, and nearly all itching skin diseases come under this head. In children it is known as teething eczema, and many a fond mother will tell you with heartfelt gratitude of how her little one was rescued from torturing, itching eczema by the use of this great ointment.

Wherever there is itching skin or a sore that refuses to heal Dr. Chase's Ointment will positively prove effective, as a relief and cure.

Dr. Chase's Ointment has an unparalleled record of cures; 600 a box, at all dealers, or Edmanson, Bates & Co., Toronto.

Our Scholars' Essays

A Reverie

—BY—

Doreen McDermott

As I travelled back to my childhood's home, fond memories loomed up in my mind. The first familiar object that greeted me was the old red bridge which spanned the "Little Swan" river whose clear rippling waters still went on as buoyant as a school boy at play. This frolicsome stream fascinated me with its charms, it sang sweet songs of days of yore I reluctantly left the haunts of many happy hours of former days.

In the distance stands a grove of elms and birch in which the old log schoolhouse was sheltered. The trees in deep leaf of gold and brown and garnet form a beautiful landscape. To my surprise and regret, I found the school, the place of happy recollection, now tumbled down and decayed. The drudgery of school lessons have lost all the severity in the perspective of time, and these words come back to me.

"School days! School days, dear old golden rule days."

Reading, writing, arithmetic, Taught to the tune of a birchwood stick."

And I live them over again.

The trees were still the same. How many times had we climbed those trees for nuts?"

Farther on is the now thriving town. In former days it was only a small peaceful village where ivy-covered cottages stood. Big noisy factories hum busily. Oh! how it changed. Where is the saw mill gone with its small but swift stream running on and emptying into the small pond? I remember how in summer it was our swimming place and in winter our skating rink. Wandering back to the old delapidated mill, I think of the time when a dozen merry bare-footed boys played hide and seek or some other good old-fashioned game around the great logs, or of the time spent in building or sailing rafts on the mill stream.

Where are all the school mates and old friends? They seem to have left the old-time place. It may be that "Some have gone to lands far distant, and with strangers made their homes."

A Winter Episode

—BY—

C. Campbell

From a certain village, about two miles east, there lies a lake. In the afternoon it looks like crystal glass. Toward nightfall the reflection of the moon makes it appear like a sheet of blue and gold.

On this lake many people are skating. The stars are shining overhead.

The snow begins to fall in beautiful flakes. The snow comes faster, loses its charm and covers the skating rinks. The people can no longer glide along so merrily; hence they go to a near abode and get warmed. Sleighs come up and the people get in one by one. They go very rapidly. The sleigh bells jingle as they go along. The trees along the road are bending low with their heavy loads of snow.

The pleasure seekers reach their destinations with cheeks like red roses.

The people go to rest and sleep very soundly till morning, when they arise and feel bright and cheerful for the day.

A Runaway

—BY—

C. A. Roulston

It was in the month of December 1902, and the weather was very cold. I set out on a long journey of about fifty miles to the nearest town.

The first day I got about twenty miles on my way, and stopped over night at a farm owned by Mr H. Mile.

The next day was cold and bright, but after feeding my horses and bidding the farmer farewell, I set off on my journey. I hoped to reach the town before night.

Having travelled for a long distance, I came to a little farm house by the side of a small river. The man came out and invited me to stop for dinner.

I accepted the invitation as I was very hungry, and my horses were also hungry and spent through their heavy journey.

After some weary travelling I reached the town, and engaged a room at the hotel.

Having done all my necessary business, the following day, I started to return home. About noon my horses, through some peculiar cause or other, started to run and I lost control of them. I fell out of the waggon and hit my head on the waggon wheel.

The next thing I remember, there were two men throwing snow on my head.

Sometime after they told me that my back was badly hurt, and that my horses had been caught about three miles away from home.

I never knew how long I lay unconscious, but I think that it was about three hours.

This story is written as it was told to me by the man who had the experience.

A Porcupine

—BY—

James Teeling

One day a man went after a load of wood for the threshers were coming next day. He took his gun because he thought that he might get a few rabbits. He had not loaded his wood on the waggon when he heard his dog barking. So he got his gun and ran in the direction of the sound.

Just as he got there the dog gave a loud howl and started to whimper. The man thinking the dog had seen something ran towards the spot. When he got there he saw it was a porcupine in a tree. He got struck in the head with a quill it did not go in far so he pulled it out. He took aim on the porcupine and fired. The porcupine fell dead showering quills all over every thing. The man got the quills and went back to his waggon never thinking of his dog. He finished loading his waggon.

Later he went to town for some bread and meat for he was a bachelor. After he got back he boiled the meat and had his dinner. When he had had his dinner he went and finished digging his potatoes. He forgot all about his dog. In the evening he done his chores, got his supper, washed the dishes and scraped up the scraps for the dog. He went to the door and called the dog, but did not find him. Then he remembered that he had left him in the bush where he had killed the porcupine.

He got on a horse and rode to the spot. He found the dog rolling on the ground and trying to get the quills out of his nose. The man pulled them out and went home. The next day the threshers came. The man told them of the porcupine. One of the men got it and had it stuffed.

"First Aid to Injured" Competition
The announcement is made that the Canadian Pacific Railway has planned a big competition for the members of its "First Aid to the Injured" classes.

The Canadian Pacific has gone into the matter very thoroughly and it is now the foremost railway in America in teaching its employees "First Aid." In the competition to be held in a few weeks practically every man on the Company's lines holding a certificate will be entered. The competition will take the form of a team contest in which there will be five men to the team. First of all examinations will be held to determine the champions of the lines East and West of Fort William and Port Arthur, and finally these latter two teams will meet to decide the Champion team of the C. P. R. system. In each division the winning team will receive a silver cup and medals given by the General Superintendents for the winners of the Eastern and Western lines competition. There will be shields given by other officials of the C.P.R. and for the team winning the Championship of the whole system there will be a beautiful shield given by the Hon. W. Nesbitt, of Toronto.

Among the cities which will be represented in this competition will be Halifax, St. John, Montreal, Ottawa, Toronto, Winnipeg, Calgary, Vancouver and Victoria.

DY-O-LA
ONE DYE FOR ALL KINDS OF GOODS

A druggist can obtain an imitation of MINARD'S LINIMENT from a Toronto house at a very low price, and have it labelled his own product.

This greasy imitation is the poorest one we have yet seen of the many that every Tom, Dick and Harry has tried to introduce.

Ask for MINARD'S and you will get it.

Not the Same

A child of strict parents, whose greatest joy had hitherto been the weekly prayer-meeting, was taken by its nurse to the circus for the first time. When he came home he exclaimed:

"Oh, mamma, if you once went to the circus you never, never go to prayer-meetings again in all your life!"—Tit-Bits.

Minard's Liniment Cures Distemper.

To Bring Them Up Well

Nurse Girl—"Oh, ma'am, what shall I do? The twins have fallen down the well!"

Fond Parent—"Dear me! how annoying! Just go into the library and get the last number of *The Modern Mother's Magazine*; it contains an article on "How to Bring Up Children."—Town Topics.

The reason a man likes to be flattened is he pretends he doesn't.

Relief for Suffering Everywhere.

He whose life is made miserable by the suffering that comes from indigestion and has not tried Parmelee's Vegetable Pills does not know how easily this form of able form can be dealt with. These pills will relieve you and others. They are the result of long and patient study and are confidently put forward as a sure corrector of disorders of the digestive organs, from which so many suffer.

Mrs. Newlywed (proudly)—"I cook that dish myself."

Mr. Newlywed (after tasting)—"And you are going to cook the contents next time?"—Puck.

Wise Men and Women Know

that most of the sicknesses of life come from inactive bowels and from unhealthy condition of the organs of digestion. If your digestive system is not working right, your food does not nourish you—poor blood and weakness follow; if your bowels are inactive—waste matter poisons the whole system and serious sickness is sure to follow. To take promptly

**BEECHAM'S
PILLS**

is to save yourself trouble and expense. Gentle, but quick; safe, but thorough, they enable the bowels to carry away waste matter naturally and tone up the whole digestive system. They will not injure the most delicate. They help you to get your bowels and your digestive organs in that condition when they can take good care of themselves and of you. Beecham's Pills

Do Good Naturally

For females, Beecham's Pills are specially suitable. See instructions with each box. Prepared only by Thomas Beecham, St. Helens, Lancashire, England. Sold everywhere in Canada and U. S. America. In boxes 25 cents.

Synopsis of Coal Mining Regulations

COAL mining rights of the Dominion in Manitoba and Saskatchewan and Alberta, the Yukon Territory, the North-West Territories and British Columbia may be leased for a term of twenty-five years at an annual rental of \$1 an acre. Not more than 2500 acres will be leased to one applicant.

Application for a lease must be made to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections and in unsurveyed territory the track applied for shall be staked out.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available but not otherwise. A royalty shall be paid on the merchantable coal out of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the agent with a return monthly accounting for the full quantity of merchantable coal mine and pay the royalty thereon. If no coal mining rights are not being operated, such return should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10.00 an acre.

The Minister may reserve for an applicant the coal mining rights under 2,000 acres of crown lands for a period of three years. Application for such rights must be made to the agent. Fee \$100.00. An expenditure at the rate of \$1 an acre per annum, in prospecting by recognized methods, must be incurred.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY
Deputy Minister of the Interior

Synopsis of Canadian North West Land Regulations

ANY person who is the sole head of a family, or any male over 18 years old, may select a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, wife, brother or sister of intending homesteader.

Duties—\$6 months residence upon and cultivation of land in each of three years. A homesteader may live within nine miles of his home, lead on a farm of at least 80 acres soley owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price \$100 per acre.

Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including the time required to earn homeestead patent) and cultivate fifty acres extra.

A home-steader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price \$100 per acre. Duties—Must reside six months in each of three years, cultivate 50 acres and erect a house worth \$100.

W. W. CORY
Deputy Minister of the Interior
